CANADIAN JOURNAL OF PHYSIOLOGY AND PHARMACOLOGY, VOLUME 44 (1966)

AUTHOR INDEX

Under each name are listed, in chronological order of publication, all articles in which an author has participated.

Abbott, E. C.
The clearing factor lipase (CFL) response to synthetic sulfonated polysaccharides in the rat. F. C. Monkhouse and E. C. Abbott, 635.

Abel, M. M.
The chronic oral toxicity of sodium chloride at the range of the $LD_{50(0.1L)}$. E. M. Boyd, M. M. Abel, and L. M. Knight, 157.

Adamkiewicz, V. W.
Potentiation by guinea pig serum of a transferable anaphylactoid reaction inducing factor in rats. V. W. Adamkiewicz, M. Laverdière, and P. J. Sacra, 493.
Glycemia and consecutive passive transfers of an anaphylactoid reaction inducing factor in rats. V. W. Adamkiewicz and P. J. Sacra, 615.

Allen, J. R.
Biochemistry of brown fat and liver of hibernating golden-mantled ground squirrels (*Citellus lateralis*). R. R. J. Chaffee, E. T. Pengelley, J. R. Allen, and R. E. Smith, 217.

Atwood, H. L.
Simple transistorized nerve stimulators. H. L. Atwood and I. Parnas, 487.

Bannard, R. A. B.
Cholinolytics in the treatment of anticholinesterase poisoning. IV. The effectiveness of five binary combinations of cholinolytics with oximes in the treatment of organophosphorus poisoning. I. W. Coleman, P. E. Little, G. E. Patton, and R. A. B. Bannard, 745.

Barta, G.
Dyed fibrin plate assay of fibrinolysis. G. Barta, 233.

Bates, D. V.
Effect of oxygen on the regional distribution of ventilation and perfusion in the lung. H. S. Holley, A. Dawson, A. C. Bryan, J. Milic-Emili, and D. V. Bates, 89.
Studies of the carbon dioxide and oxygen tensions of urine during application of the stop-flow technique. D. T. Zborowski, B. Koch, D. V. Bates, and J. B. Dossetor, 731.

Beaton, G. H.
Vitamin A transport in the rat. M. J. Veen and G. H. Beaton, 521.

Beaton, J. R.
Factors influencing the excretion of a fat-mobilizing substance in the urine of rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 95.
Observations on the lipolytic action in vitro of a fat-mobilizing substance extracted from urine of fasting rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 103.
The effect of nutritional state on ability of the rat to swim to exhaustion. J. R. Beaton and V. Feleki, 597.
Metabolic effects of hyperphagia in the hypothalamic-hyperphagic rat. K. K. May and J. R. Beaton, 641.
Purification by ultrafiltration of a fat-mobilizing substance extracted from the urine of fasting rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 701.

Beaulnes, A.
Symposium on the relationships between morphology and pharmacology. Introduction. A. Beaulnes, 327.
Pharmacological reactivity of dystrophic muscle. A. Beaulnes, P. Bois, and R. Carle, 353.
Histamine, magnesium deficiency, and thymic tumors in rats. P. Bois and A. Beaulnes, 373.

Bégin, N.
Autoradiography and drug localization. L. Berlinguet, N. Bégin, L. Nicole, A. Ho-Van-Hap, and P. Singh, 345.

Bélanger, L. F.
Osteolysis in the frog. The effects of parathormone. L. F. Bélanger and P. Drouin, 919.
The effect of parathormone and calcitonin on the survival of freshly explanted chick embryo heart fibroblasts. S. Tolnai and L. F. Bélanger, 1021.

Berlinguet, L.
Autoradiography and drug localization. L. Berlinguet, N. Bégin, L. Nicole, A. Ho-Van-Hap, and P. Singh, 345.

Beznak, M.
Effect of hypophysectomy and hormone treatment on the heart–lung preparation of rats. B. Korecky, M. Beznak, and M. Korecka, 13.
Cardiac performance in heart–lung preparations of rats with experimental cardiac hypertrophy. B. Korecky, M. Beznak, and M. Korecka, 21.
Bhargava, K. P.
Identification of acetylcholine, histamine, and 5-hydroxytryptamine in *Girardinia heterophylla*. P. R. Saxena, K. K. Tangri, and K. P. Bhargava, 621.
Central vasomotor effects of α-methyl dopa. B. P. Jaju, K. K. Tangri, and K. P. Bhargava. 687.
Biely, J.
Interacting effects of thyroid activity and dietary level of vitamin A on erythrocyte fragility in the chicken. B. E. March, V. Coates, and J. Biely, 295.
The effects of estrogen and androgen on osmotic fragility and fatty acid composition of erythrocytes in the chicken. B. E. March, V. Coates, and J. Biely, 379.
Blatt, W. F.
Hemodialysis of the rat. S. M. Robinson, D. A. Hurwitz, R. Louis-Ferdinand, and W. F. Blatt, 849.
Blehm, S.
The effect of X-irradiation on the cell size distribution of thymus lymphocytes. P. V. Vittorio, S. Blehm, and D. Linkletter, 77.
Bois, P.
Pharmacological reactivity of dystrophic muscle. A. Beaulnes, P. Bois, and R. Carle, 353.
Histamine, magnesium deficiency, and thymic tumors in rats. P. Bois and A. Beaulnes, 373.
Boucher, R.
Improvement in methodology for measurement of plasma renin activity. R. Boucher and J. Genest, 181.
Boyd, E. M.
The chronic oral toxicity of sodium chloride at the range of the $LD_{50(0.1L)}$. E. M. Boyd, M. M. Abel, and L. M. Knight, 157.
The acute rectal toxicity of acetylsalicylic acid. B. B. Coldwell and E. M. Boyd, 909.
Brière, N.
Deoxyribonucleic acid labelling after tritiated thymidine injection. N. Brière and H. Isler, 451.
Brown, N. L.
Propranolol (Inderal) in experimentally-induced cardiac arrhythmias. B. R. Lucchesi, L. S. Whitsitt, and N. L. Brown, 543.
Bryan, A. C.
Effect of oxygen on the regional distribution of ventilation and perfusion in the lung. H. S. Holley, A. Dawson, A. C. Bryan, J. Milic-Emili, and D. V. Bates, 89.
Burton, A. C.
Changes in the resting potential of skeletal muscle in rats with cold acclimation. M. H. Sherebrin and A. C. Burton, 791.
The effect of adrenaline on the secretion and amylase content of parotid saliva in man. P. D. Newberry and A. C. Burton, 803.
Campbell, J.
Free fatty acid metabolism in Chinese hamsters. J. Campbell and G. R. Green, 47.
Carle, R.
Pharmacological reactivity of dystrophic muscle. A. Beaulnes, P. Bois, and R. Carle, 353.
Carr, W.
Hemodynamic response to exercise after propranolol in normal subjects. G. R. Cumming and W. Carr, 465.
Carrier, O., Jr.
The effect of sodium pentobarbital on the responses to catecholamines in normal and reserpinized dogs. O. Carrier, Jr. and W. C. Holland, 176.
The effect of hemorrhagic shock on blood uric acid level. M. K. Cowsert, Jr., O. Carrier, Jr., and J. W. Crowell, 861.
Carruthers, B. M.
Leukocyte motility. I. Method of study, normal variation, effect of physical alterations in environment, and effect of iodoacetate. B. M. Carruthers, 475.
Chaffee, R. R. J.
Biochemistry of brown fat and liver of hibernating golden-mantled ground squirrels (*Citellus lateralis*). R. R. J. Chaffee, E. T. Pengelley, J. R. Allen, and R. E. Smith, 217.
Chandler, B. H.
Biological activity of bovine brain constituents. R. K. Shaw, B. H. Chandler, and W. C. Stewart, 69.

Chang, T. M. S.
Semipermeable aqueous microcapsules. I. Preparation and properties. T. M. S. Chang, F. C. MacIntosh, and S. G. Mason, 115.
Erratum: Semipermeable aqueous microcapsules. I. Preparation and properties. T. M. S. Chang, F. C. MacIntosh, and S. G. Mason, 513.
Coates, V.
Interacting effects of thyroid activity and dietary level of vitamin A on erythrocyte fragility in the chicken. B. E. March, V. Coates, and J. Biely, 295.
The effects of estrogen and androgen on osmotic fragility and fatty acid composition of erythrocytes in the chicken. B. E. March, V. Coates, and J. Biely, 379.
Coceani, F.
On the action of prostaglandin E_1 and prostaglandins from brain on the isolated rat stomach. F. Coceani and L. S. Wolfe, 933.
Coldwell, B. B.
The acute rectal toxicity of acetylsalicylic acid. B. B. Coldwell and E. M. Boyd, 909.
Coleman, I. W.
Cholinolytics in the treatment of anticholinesterase poisoning. IV. The effectiveness of five binary combinations of cholinolytics with oximes in the treatment of organophosphorus poisoning. I. W. Coleman, P. E. Little, G. E. Patton, and R. A. B. Bannard, 745.
Cottle, W. H.
Urinary excretion of glucuronides by cold-acclimated rats. W. H. Cottle and A. T. Veress, 325.
Serum binding and biliary clearance of triiodothyronine in cold-acclimated rats. W. H. Cottle and A. T. Veress, 571.
Cowan, C. R.
Studies on electrically induced thrombosis and related phenomena. C. R. Cowan and F. C. Monkhouse, 881.
Cowsert, M. K., Jr.
The effect of hemorrhagic shock on blood uric acid level. M. K. Cowsert, Jr., O. Carrier, Jr., and J. W. Crowell, 861.
Crowell, J. W.
The effect of hemorrhagic shock on blood uric acid level. M. K. Cowsert, Jr., O. Carrier, Jr., and J. W. Crowell, 861.
Cumming, G. R.
Hemodynamic response to exercise after propranolol in normal subjects. G. R. Cumming and W. Carr, 465.
Daniel, E. E.
The contractile response of the uterus to cocaine. E. E. Daniel and M. Wolowyk, 721.
Electrical and contractile responses of the pyloric region to adrenergic and cholinergic drugs. E. E. Daniel, 951.
Further studies of the pharmacology of the pyloric region. Analysis of the effects of intra-arterial histamine, serotonin, phenyldiguanide, morphine, and other drugs on the antrum and duodenal bulb. E. E. Daniel, 981.
Davidson, W. J.
The adrenergic receptors in the guinea pig uterus. W. J. Davidson and C. Ikoku, 491.
Dawson, A.
Effect of oxygen on the regional distribution of ventilation and perfusion in the lung. H. S. Holley, A. Dawson, A. C. Bryan, J. Milic-Emili, and D. V. Bates, 89.
Depocas, F.
Concentration and turnover of cytochrome *c* in skeletal muscles of warm- and cold-acclimated rats. F. Depocas, 875.
Dieudonné, J. M.
Occurrence and prevention of postasphyxial intraventricular pressure gradients. J. M. Dieudonné, 209.
Artificial nature and site of the systolic pressure drop during inotropic stimulation of the normal ventricle. J. M. Dieudonné, 829.
Dossetor, J. B.
Studies of the carbon dioxide and oxygen tensions of urine during application of the stop-flow technique. D. T. Zborowski, B. Koch, D. V. Bates, and J. B. Dossetor, 731.
Drouin, P.
Osteolysis in the frog. The effects of parathormone. L. F. Bélanger and P. Drouin, 919.
Duff, J. H.
Effect of prolonged infusion of isoproterenol on plasma volume and blood lactate and pyruvate in the dog. H. M. Scott, D. I. Peretz, J. H. Duff, L. D. MacLean, and M. McGregor, 29.

Dugal, L. P.
Effect of food and water consumption, liver function, and thyroid function on the spontaneous running activity of white rats. L. C. Smith and L. P. Dugal, 455.
Influence of testosterone on the spontaneous running activity of white rats. L. C. Smith and L. P. Dugal, 682.
Ecobichon, D. J.
Properties and classification of the soluble esterases of human brain. D. J. Ecobichon, 225.
Eik-Nes, K. B.
Secretion of testosterone by the eutopic and the cryptorchid testes in the same dog. K. B. Eik-Nes, 629.
Fam, W. M.
The effect of coronary vasodilatation (dipyridamole-induced) on the myocardial distribution of tritiated water. W. H. Palmer, W. M. Fam, and M. McGregor, 777.
Feleki, V.
The effect of nutritional state on ability of the rat to swim to exhaustion. J. R. Beaton and V. Feleki, 597.
Felt, V.
On the effect of the thyroid on the metabolism of free fatty acids and cholesterol in fasting rats. V. Felt, 443.
Fensom, D. S.
Electroosmosis in axons of freshly killed squid. W. B. Stallworthy and D. S. Fensom, 866.
Fiorica, V.
Adaptation to sucrose loading in the rat. V. Fiorica, P. F. Iampietro, and R. Moses, 389.
Firstbrook, J. B.
Effects of exercise and a cholesterol-free diet on human serum lipids. R. C. Goode, J. B. Firstbrook, and R. J. Shephard, 575.
Foerster, J.
The early-appearing bilirubin in ducks. L. G. Israels, W. Novak, J. Foerster, and A. Zipursky, 864.
Fregly, M. J.
Water intake of rats immediately after exposure to a cold environment. M. J. Fregly and I. W. Waters, 651.
Friedman, C. L.
An attempt to reproduce experimentally the pattern of salt and water distribution of age in the young neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, D. Hamilton, and C. L. Friedman, 429.
Friedman, S. M.
Effects of aldosterone, vasopressin, and corticosterone on salt and water distribution in the neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, and D. Hamilton, 409.
Combined effects of aldosterone, vasopressin, and corticosterone on salt and water distribution in the neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, and D. Hamilton, 417.
An attempt to reproduce experimentally the pattern of salt and water distribution of age in the young neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, D. Hamilton, and C. L. Friedman, 429.
Gabbiani, G.
Effect of phosphates upon experimental skin calcinosis. G. Gabbiani, 203.
Gardner, D. G.
The effects of prepubertal ovariectomy on connective tissue generation. D. G. Gardner, 783.
Genest, J.
Improvement in methodology for measurement of plasma renin activity. R. Boucher and J. Genest, 181.
Girling, F.
The effect of breathing 15%, 21%, and 100% oxygen on the shivering response of nude human subjects at 10 °C. F. Girling and E. D. L. Topliff, 495.
Goldspink, G.
An attempt at estimating extrafiber fluid in small skeletal muscles by a simple physical method. G. Goldspink, 765.
Goode, R. C.
Effects of exercise and a cholesterol-free diet on human serum lipids. R. C. Goode, J. B. Firstbrook, and R. J. Shephard, 575.
Gourley, D. R. H.
An apparent increase in water content of frog sartorius muscle exposed to insulin and carbohydrate intermediates. D. R. H. Gourley and T. K. Suh, 871.

Green, G. R.
Free fatty acid metabolism in Chinese hamsters. J. Campbell and G. R. Green, 47.
Gustafson, B.
Effects of aldosterone, vasopressin, and corticosterone on salt and water distribution in the neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, and D. Hamilton, 409.
Combined effects of aldosterone, vasopressin, and corticosterone on salt and water distribution in the neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, and D. Hamilton, 417.
An attempt to reproduce experimentally the pattern of salt and water distribution of age in the young neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, D. Hamilton, and C. L. Friedman, 429.
Hamilton, D.
Effects of aldosterone, vasopressin, and corticosterone on salt and water distribution in the neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, and D. Hamilton, 409.
Combined effects of aldosterone, vasopressin, and corticosterone on salt and water distribution in the neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, and D. Hamilton, 417.
An attempt to reproduce experimentally the pattern of salt and water distribution of age in the young neurohypophysectomized adrenalectomized rat. S. M. Friedman, B. Gustafson, D. Hamilton, and C. L. Friedman, 429.
Hanson, R. W.
Quantitative aspects of glutamate utilization by rat adipose tissue and liver in vitro: Effect of periodicity of eating. G. A. Leveille and R. W. Hanson, 275.
Hartroft, W. S.
Dietary control of serum cholesterol levels in rats fed high-fat, cholate-containing diets. R. B. Wilson, J. M. Martin, and W. S. Hartroft, 267.
Hawkins, R. D.
Effects of chronic intake of ethanol on rate of ethanol metabolism. R. D. Hawkins, H. Kalant, and J. M. Khanna, 241.
Hetenyi, G., Jr.
The effect of insulin on the distribution space of galactose in eviscerated normal and diabetic rats and their selected organs. F. K. Waterman and G. Hetenyi, Jr., 923.
Hickie, R. A.
Effects of perfusion media on the Ca^{++} and Mg^{++} content of rat liver. R. A. Hickie and H. Kalant, 893.
Hickman, C. P., Jr.
Transformation reactions and spontaneous labelling of iodophenols during thin-layer chromatography of radioiodine ^{125}I. G. H. Jacoby and C. P. Hickman, Jr., 499.
Hill, R. J.
Response of isolated liver to endotoxin. L. B. Hinshaw, D. A. Reins, and R. J. Hill, 529.
Hinke, J. A. M.
Sodium and water binding in single striated muscle fibers of the giant barnacle. S. G. A. McLaughlin and J. A. M. Hinke, 837.
Hinshaw, L. B.
Effect of endrin on venous return and catecholamine release in the dog. D. A. Reins, J. A. Rieger, Jr., W. B. Stavinoha, and L. B. Hinshaw, 59.
Response of isolated liver to endotoxin. L. B. Hinshaw, D. A. Reins, and R. J. Hill, 529.
Holland, W. C.
The effect of sodium pentobarbital on the responses to catecholamines in normal and reserpinized dogs. O. Carrier, Jr. and W. C. Holland, 176.
Holley, H. S.
Effect of oxygen on the regional distribution of ventilation and perfusion in the lung. H. S. Holley, A. Dawson, A. C. Bryan, J. Milic-Emili, and D. V. Bates, 89.
Hosein, E. A.
Acetylcholine-like activity in narcotized brain extracts; studies with *d*-tubocurarine. E. A. Hosein and A. Orzeck, 510.
Ho-Van-Hap, A.
Autoradiography and drug localization. L. Berlinguet, N. Bégin, L. Nicole, A. Ho-Van-Hap, and P. Singh, 345.
Hurwitz, D. A.
Hemodialysis of the rat. S. M. Robinson, D. A. Hurwitz, R. Louis-Ferdinand, and W. F. Blatt, 849.
Iampietro, P. F.
Adaptation to sucrose loading in the rat. V. Fiorica, P. F. Iampietro, and R. Moses, 389.

Ikoku, C.
The adrenergic receptors in the guinea pig uterus. W. J. Davidson and C. Ikoku, 491.
Isler, H.
Deoxyribonucleic acid labelling after tritiated thymidine injection. N. Brière and H. Isler, 451.
Isreals, L. G.
Erythrocyte sodium transport in hereditary elliptocytosis. J. C. Peters, M. Rowland, L. G. Israels, and A. Zipursky, 817.
The early-appearing bilirubin in ducks. L. G. Israels, W. Novak, J. Foerster, and A. Zipursky, 864.
Jacoby, I. G. H.
Transformation reactions and spontaneous labelling of iodophenols during thin-layer chromatography of radioiodine ^{125}I. G. H. Jacoby and C. P. Hickman, Jr., 499.
Jaju, B. P.
Central vasomotor effects of α-methyl dopa. B. P. Jaju, K. K. Tangri, and K. P. Bhargava, 687.
James, T. N.
The behavior of atrio–ventricular nodal rhythm following direct perfusion of the sinus node. R. A. Nadeau and T. N. James, 317.
Jasmin, G.
Morphologic effects of vasoactive drugs. G. Jasmin, 367.
Jhamandas, K. H.
An investigation of sodium and calcium competition in vascular smooth muscle. C. W. Nash, E. V. Luchka, and K. H. Jhamandas, 147.
Josenhans, W. T.
Resolution of ballistographic records into cardiac and respiratory components. P. M. Rautaharju and W. T. Josenhans, 691.
Kako, K.
An increase in myocardial phosphorylcreatine during induced cardiac arrest. K. Kako, 675.
The effect of a β adrenergic blocking agent on chemical changes in isoproterenol-induced myocardial necrosis. K. Kako, 678.
Kalant, H.
Acute effects of ethanol on tissue electrolytes in the rat. H. Kalant, W. Mons, and M. A. Mahon, 1.
Effects of chronic intake of ethanol on rate of ethanol metabolism. R. D. Hawkins, H. Kalant, and J. M. Khanna, 241.
Effects of perfusion media on the Ca^{++} and Mg^{++} content of rat liver. R. A. Hickie and H. Kalant, 893.
Katorski, B.
Increased blood clotting time in a hibernating lizard. M. Zain-ul-Abedin and B. Katorski, 505.
Khanna, J. M.
Effects of chronic intake of ethanol on rate of ethanol metabolism. R. D. Hawkins, H. Kalant, and J. M. Khanna, 241.
Klingner, B.
Comparative blood pressure and electrocardiographic changes induced by proscillaridin and ouabain. K. I. Melville, H. E. Shister, and B. Klingner, 887.
Koch, B.
Studies of the carbon dioxide and oxygen tensions of urine during application of the stop-flow technique. D. T. Zborowski, B. Koch, D. V. Bates, and J. B. Dossetor, 731.
Korecka, M.
Effect of hypophysectomy and hormone treatment on the heart–lung preparation of rats. B. Korecky, M. Beznak, and M. Korecka, 13.
Cardiac performance in heart–lung preparations of rats with experimental cardiac hypertrophy. B. Korecky, M. Beznak, and M. Korecka, 21.
Korecky, B.
Effect of hypophysectomy and hormone treatment on the heart–lung preparation of rats. B. Korecky, M. Beznak, and M. Korecka, 13.
Cardiac performance in heart–lung preparations of rats with experimental cardiac hypertrophy. B. Korecky, M. Beznak, and M. Korecka, 21.
Kovacs, B. A.
Differences in gastric acid output in response to histamine between male and female guinea pigs. K. Voith and B. A. Kovacs, 515.
Knight, L. M.
The chronic oral toxicity of sodium chloride at the range of the $LD_{50(0.1L)}$. E. M. Boyd, M. M. Abel, and L. M. Knight, 157.

Krass, M. E.
Stimulation of adrenal activity by the administration of corticosterone to rats chronically treated with amphenone or methapyrapone. J. J. Pollock, F. S. LaBella, and M. E. Krass, 557.
Krikke, E. H.
Effect of plasma proteins on the fragility of erythrocytes. D. C. Triantaphyllopoulos and E. H. Krikke, 401.
La Bella, F. S.
Inhibition by cortisol of ACTH release from anterior pituitary tissue in vitro. J. J. Pollock and F. S. LaBella, 549.
Stimulation of adrenal activity by the administration of corticosterone to rats chronically treated with amphenone or methapyrapone. J. J. Pollock, F. S. LaBella, and M. E. Krass, 557.
Latour, J. G.
Blood platelet fluctuation consecutive to trauma and surgical intervention in the rat, a possible stress effect. J. G. Latour and S. Renaud, 581.
Role of the pituitary–adrenocortical system in the stress-induced blood platelet fluctuation. S. Renaud and J. G. Latour, 589.
Laverdière, M.
Potentiation by guinea pig serum of a transferable anaphylactoid reaction inducing factor in rats. V. W. Adamkiewicz, M. Laverdière, and P. J. Sacra, 493.
LeBlanc, J.
Studies on habituation to cold pain. J. LeBlanc and P. Potvin, 287.
Leveille, G. A.
Quantitative aspects of glutamate utilization by rat adipose tissue and liver in vitro: Effect of periodicity of eating. G. A. Leveille and R. W. Hanson, 275.
Linkletter, D.
The effect of X-irradiation on the cell size distribution of thymus lymphocytes. P. V. Vittorio, S. Blehm, and D. Linkletter, 77.
Little, P. E.
Cholinolytics in the treatment of anticholinesterase poisoning. IV. The effectiveness of five binary combinations of cholinolytics with oximes in the treatment of organophosphorus poisoning. I. W. Coleman, P. E. Little, G. E. Patton, and R. A. B. Bannard, 745.
Logothetopoulos, J.
Fatty livers in fetal and newborn rabbits. J. Logothetopoulos, J. H. Ridout, and C. C. Lucas, 173.
Louis-Ferdinand, R.
Hemodialysis of the rat. S. M. Robinson, D. A. Hurwitz, R. Louis-Ferdinand, and W. F. Blatt, 849.
Lucas, C. C.
Fatty livers in fetal and newborn rabbits. J. Logothetopoulos, J. H. Ridout, and C. C. Lucas, 173.
Lucchesi, B. R.
Propranolol (Inderal) in experimentally-induced cardiac arrhythmias. B. R. Lucchesi, L. S. Whitsitt, and N. L. Brown, 543.
Luchka, E. V.
An investigation of sodium and calcium competition in vascular smooth muscle. C. W. Nash, E. V. Luchka, and K. H. Jhamandas, 147.
McGregor, M.
Effect of prolonged infusion of isoproterenol on plasma volume and blood lactate and pyruvate in the dog. H. M. Scott, D. I. Peretz, J. H. Duff, L. D. MacLean, and M. McGregor, 29.
The effect of coronary vasodilatation (dipyridamole-induced) on the myocardial distribution of tritiated water. W. H. Palmer, W. M. Fam, and M. McGregor, 777.
MacIntosh, F. C.
Semipermeable aqueous microcapsules. I. Preparation and properties. T. M. S. Chang, F. C. MacIntosh, and S. G. Mason, 115.
Erratum: Semipermeable aqueous microcapsules. I. Preparation and properties. T. M. S. Chang, F. C. MacIntosh, and S. G. Mason, 513.
McLaughlin, S. G. A.
Sodium and water binding in single striated muscle fibers of the giant barnacle. S. G. A. McLaughlin and J. A. M. Hinke, 837.
MacLean, L. D.
Effect of prolonged infusion of isoproterenol on plasma volume and blood lactate and pyruvate in the dog. H. M. Scott, D. I. Peretz, J. H. Duff, L. D. MacLean, and M. McGregor, 29.

MacLeod, D. P.
Effect of hemicholinium No. 3 on the response of frog rectus abdominus muscle to acetylcholine. K. Prasad and D. P. MacLeod, 179.
Mahon, M. A.
Acute effects of ethanol on tissue electrolytes in the rat. H. Kalant, W. Mons, and M. A. Mahon, 1.
Mainwood, G. W.
Some electrical characteristics of sucrose-washed frog sartorius muscle. G. W. Mainwood, 663.
March, B. E.
Interacting effects of thyroid activity and dietary level of vitamin A on erythrocyte fragility in the chicken. B. E. March, V. Coates, and J. Biely, 295.
The effects of estrogen and androgen on osmotic fragility and fatty acid composition of erythrocytes in the chicken. B. E. March, V. Coates, and J. Biely, 379.
Martin, J. M.
Dietary control of serum cholesterol levels in rats fed high-fat, cholate-containing diets. R. B. Wilson, J. M. Martin, and W. S. Hartroft, 267.
Mason, S. G.
Semipermeable aqueous microcapsules. I. Preparation and properties. T. M. S. Chang, F. C. MacIntosh, and S. G. Mason, 115.
Erratum: Semipermeable aqueous microcapsules. I. Preparation and properties. T. M. S. Chang, F. C. MacIntosh, and S. G. Mason, 513.
May, K. K.
Metabolic effects of hyperphagia in the hypothalamic-hyperphagic rat. K. K. May and J. R. Beaton, 641.
Melville, K. I.
Comparative blood pressure and electrocardiographic changes induced by proscillaridin and ouabain. K. I. Melville, H. E. Shister, and B. Klingner, 887.
Milic-Emili, J.
Effect of oxygen on the regional distribution of ventilation and perfusion in the lung. H. S. Holley, A. Dawson, A. C. Bryan, J. Milic-Emili, and D. V. Bates, 89.
Mogenson, G. J.
Effects of spreading cortical depression on cardiac and somatomotor conditioned responses. G. J. Mogenson and R. J. Peterson, 39.
Monkhouse, F. C.
The clearing factor lipase (CFL) response to synthetic sulfonated polysaccharides in the rat. F. C. Monkhouse and E. C. Abbott, 635.
Studies on electrically induced thrombosis and related phenomena. C. R. Cowan and F. C. Monkhouse, 881.
Mons, W.
Acute effects of ethanol on tissue electrolytes in the rat. H. Kalant, W. Mons, and M. A. Mahon, 1.
Morrin, P. A. F.
The effect of Furosemide, a new diuretic agent, on renal concentrating and diluting mechanisms. P. A. F. Morrin, 129.
Moses, R.
Adaptation to sucrose loading in the rat. V. Fiorica, P. F. Iampietro, and R. Moses, 389.
Nadeau, R. A.
Simulation of sinus node activity by an electronic relaxation oscillator. F. A. Roberge and R. A. Nadeau, 301.
The behavior of atrio–ventricular nodal rhythm following direct perfusion of the sinus node. R. A. Nadeau and T. N. James, 317.
Nash, C. W.
An investigation of sodium and calcium competition in vascular smooth muscle. C. W. Nash, E. V. Luchka, and K. H. Jhamandas, 147.
Newberry, P. D.
The effect of adrenaline on the secretion and amylase content of parotid saliva in man. P. D. Newberry and A. C. Burton, 803.
Nicholson, T. F.
The proximal tubular handling of amino acids and other ninhydrin-positive substances. L. A. Wright and T. F. Nicholson, 183.
The plasma levels, filtered loads, excretion rates, and clearances of a number of ninhydrin-positive substances by normal fasting dogs. L. A. Wright and T. F. Nicholson, 195.
The distal tubular handling of ninhydrin-positive substances. L. A. Wright and T. F. Nicholson, 435.

Nicole, L.
Autoradiography and drug localization. L. Berlinguet, N. Bégin, L. Nicole, A. Ho-Van-Hap, and P. Singh, 345.
Novak, W.
The early-appearing bilirubin in ducks. L. G. Israels, W. Novak, J. Foerster, and A. Zipursky, 864.
Oliver, W. T.
The influence of sympathomimetic amines, monoamine oxidase inhibitors, and antihypertensives upon the energy metabolism in the rat heart. W. G. Hilliard, W. T. Oliver, and G. R. Van Petten, 605.
Orzeck, A.
Acetylcholine-like activity in narcotized brain extracts; studies with *d*-tubocurarine. E. A. Hosein and A. Orzeck, 510.
Palmer, W. H.
The effect of coronary vasodilatation (dipyridamole-induced) on the myocardial distribution of tritiated water. W. H. Palmer, W. M. Fam, and M. McGregor, 777.
Parnas, I.
Simple transistorized nerve stimulators. H. L. Atwood and I. Parnas, 487.
Patton, G. E.
Cholinolytics in the treatment of anticholinesterase poisoning. IV. The effectiveness of five binary combinations of cholinolytics with oximes in the treatment of organophosphorus poisoning. I. W. Coleman, P. E. Little, G. E. Patton, and R. A. B. Bannard, 745.
Pengelley, E. T.
Biochemistry of brown fat and liver of hibernating golden-mantled ground squirrels (*Citellus lateralis*). R. R. J. Chaffee, E. T. Pengelley, J. R. Allen, and R. E. Smith, 217.
Peretz, D. I.
Effect of prolonged infusion of isoproterenol on plasma volume and blood lactate and pyruvate in the dog. H. M. Scott, D. I. Peretz, J. H. Duff, L. D. MacLean, and M. McGregor, 29.
Peters, J. C.
Erythrocyte sodium transport in hereditary elliptocytosis. J. C. Peters, M. Rowland, L. G. Israels, and A. Zipursky, 817.
Peterson, R. J.
Effects of spreading cortical depression on cardiac and somatomotor conditioned responses. G. J. Mogenson and R. J. Peterson, 39.
Pollock, J. J.
Inhibition by cortisol of ACTH release from anterior pituitary tissue in vitro. J. J. Pollock and F. S. LaBella, 549.
Stimulation of adrenal activity by the administration of corticosterone to rats chronically treated with amphenone or methapyrapone. J. J. Pollock, F. S. LaBella, and M. E. Krass, 557.
Potvin, P.
Studies on habituation to cold pain. J. LeBlanc and P. Potvin, 287.
Prasad, K.
Effect of hemicholinium No. 3 on the response of frog rectus abdominus muscle to acetylcholine. K. Prasad and D. P. MacLeod, 179.
Radomski, M. W.
Effect of cold exposure on serum lipids and lipoproteins in the rat. M. W. Radomski, 711.
Rautaharju, P. M.
Resolution of ballistographic records into cardiac and respiratory components. P. M. Rautaharju and W. T. Josenhans, 691.
Reins, D. A.
Effect of endrin on venous return and catecholamine release in the dog. D. A. Reins, J. A. Rieger, Jr., W. B. Stavinoha, and L. B. Hinshaw, 59.
Response of isolated liver to endotoxin. L. B. Hinshaw, D. A. Reins, and R. J. Hill, 529.
Renaud, S.
Blood platelet fluctuation consecutive to trauma and surgical intervention in the rat, a possible stress effect. J. G. Latour and S. Renaud, 581.
Role of the pituitary–adrenocortical system in the stress-induced blood platelet fluctuation. S. Renaud and J. G. Latour, 589.
Ridout, J. H.
Fatty livers in fetal and newborn rabbits. J. Logothetopoulos, J. H. Ridout, and C. C. Lucas, 173.
Rieger, J. A., Jr.
Effect of endrin on venous return and catecholamine release in the dog. D. A. Reins, J. A. Rieger, Jr., W. B. Stavinoha, and L. B. Hinshaw, 59.

Ringer, R. K.
Volume–pressure relationships of the turkey aorta. E. W. Speckmann and R. K. Ringer, 901.
Roberge, F. A.
Simulation of sinus node activity by an electronic relaxation oscillator. F. A. Roberge and R. A. Nadeau, 301.
Robinson, S. M.
Hemodialysis of the rat. S. M. Robinson, D. A. Hurwitz, R. Louis-Ferdinand, and W. F. Blatt, 849.
Rowland, M.
Erythrocyte sodium transport in hereditary elliptocytosis. J. C. Peters, M. Rowland, L. G. Israels, and A. Zipursky, 817.
Sacra, P. J.
Potentiation by guinea pig serum of a transferable anaphylactoid reaction inducing factor in rats. V. W. Adamkiewicz, M. Laverdière, and P. J. Sacra, 493.
Glycemia and consecutive passive transfers of an anaphylactoid reaction inducing factor in rats. V. W. Adamkiewicz and P. J. Sacra, 615.
Sandborn, E. B.
Electron microscopy of the neuron membrane systems and filaments. E. B. Sandborn, 329.
Saxena, P. R.
Identification of acetylcholine, histamine, and 5-hydroxytryptamine in *Girardinia heterophylla*. P. R. Saxena, K. K. Tangri, and K. P. Bhargava, 621.
Scott, H. M.
Effect of prolonged infusion of isoproterenol on plasma volume and blood lactate and pyruvate in the dog. H. M. Scott, D. I. Peretz, J. H. Duff, L. D. MacLean, and M. McGregor, 29.
Shaw, R. K.
Biological activity of bovine brain constituents. R. K. Shaw, B. H. Chandler, and W. C. Stewart, 69.
Shephard, R. J.
Effects of exercise and a cholesterol-free diet on human serum lipids. R. C. Goode, J. B. Firstbrook, and R. J. Shephard, 575.
Sherebrin, M. H.
Changes in the resting potential of skeletal muscle in rats with cold acclimation. M. H. Sherebrin and A. C. Burton, 791.
Shister, H. E.
Comparative blood pressure and electrocardiographic changes induced by proscillaridin and ouabain. K. I. Melville, H. E. Shister, and B. Klingner, 887.
Singh, P.
Autoradiography and drug localization. L. Berlinguet, N. Bégin, L. Nicole, A. Ho-Van-Hap, and P. Singh, 345.
Smith, L. C.
Effect of food and water consumption, liver function, and thyroid function on the spontaneous running activity of white rats. L. C. Smith and L. P. Dugal, 455.
Influence of testosterone on the spontaneous running activity of white rats. L. C. Smith and L. P. Dugal, 682.
Smith, R. E.
Biochemistry of brown fat and liver of hibernating golden-mantled ground squirrels (*Citellus lateralis*). R. R. J. Chaffee, E. T. Pengelley, J. R. Allen, and R. E. Smith, 217.
Speckmann, E. W.
Volume–pressure relationships of the turkey aorta. E. W. Speckmann and R. K. Ringer, 901.
Stallworthy, W. B.
Electroosmosis in axons of freshly killed squid. W. B. Stallworthy and D. S. Fensom, 866.
Stavinoha, W. B.
Effect of endrin on venous return and catecholamine release in the dog. D. A. Reins, J. A. Rieger, Jr., W. B. Stavinoha, and L. B. Hinshaw, 59.
Stevenson, J. A. F.
Factors influencing the excretion of a fat-mobilizing substance in the urine of rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 95.
Observations on the lipolytic action in vitro of a fat-mobilizing substance extracted from urine of fasting rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 103.
The temperature response of acclimatized and unacclimatized rats to exercise in the cold. G. E. Thompson and J. A. F. Stevenson, 139.
Purification by ultrafiltration of a fat-mobilizing substance extracted from the urine of fasting rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 701.
Stewart, W. C.
Biological activity of bovine brain constituents. R. K. Shaw, B. H. Chandler, and W. C. Stewart, 69.

Suh, T. K.
An apparent increase in water content of frog sartorius muscle exposed to insulin and carbohydrate intermediates. D. R. H. Gourley and T. K. Suh, 871.
Szlavko, A. J.
Factors influencing the excretion of a fat-mobilizing substance in the urine of rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 95.
Observations on the lipolytic action in vitro of a fat-mobilizing substance extracted from urine of fasting rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 103.
Purification by ultrafiltration of a fat-mobilizing substance extracted from the urine of fasting rats. J. R. Beaton, A. J. Szlavko, and J. A. F. Stevenson, 701.
Tangri, K. K.
Identification of acetylcholine, histamine, and 5-hydroxytryptamine in *Girardinia heterophylla*. P. R. Saxena, K. K. Tangri, and K. P. Bhargava, 621.
Central vasomotor effects of α-methyl dopa. B. P. Jaju, K. K. Tangri, and K. P. Bhargava, 687.
Thompson, G. E.
The temperature response of acclimatized and unacclimatized rats to exercise in the cold. G. E. Thompson and J. A. F. Stevenson, 139.
Tolnai, S.
Tissue culture and the study of anticancer agents. S. Tolnai, 339.
The effect of parathormone and calcitonin on the survival of freshly explanted chick embryo heart fibroblasts. S. Tolnai and L. F. Bélanger, 1021.
Topliff, E. D. L.
The effect of breathing 15%, 21%, and 100% oxygen on the shivering response of nude human subjects at 10 °C. F. Girling and E. D. L. Topliff, 495.
Triantaphyllopoulos, D. C.
Effect of plasma proteins on the fragility of erythrocytes. D. C. Triantaphyllopoulos and E. H. Krikke, 401.
Van Petten, G. R.
The influence of sympathomimetic amines, monoamine oxidase inhibitors, and antihypertensives upon the energy metabolism in the rat heart. W. G. Hilliard, W. T. Oliver, and G. R. Van Petten, 605.
Veen, M. J.
Vitamin A transport in the rat. M. J. Veen and G. H. Beaton, 521.
Veress, A. T.
Urinary excretion of glucuronides by cold-acclimated rats. W. H. Cottle and A. T. Veress, 325.
Serum binding and biliary clearance of triiodothyronine in cold-acclimated rats. W. H. Cottle and A. T. Veress, 571.
Vittorio, P. V.
The effect of X-irradiation on the cell size distribution of thymus lymphocytes. P. V. Vittorio, S. Blehm, and D. Linkletter, 77.
Voith, K.
Differences in gastric acid output in response to histamine between male and female guinea pigs. K. Voith and B. A. Kovacs, 515.
Waterman, F. K.
The effect of insulin on the distribution space of galactose in eviscerated normal and diabetic rats and their selected organs. F. K. Waterman and G. Hetenyi, Jr., 923.
Waters, I. W.
Water intake of rats immediately after exposure to a cold environment. M. J. Fregly and I. W. Waters, 651.
Webber, W. A.
Renal tubular reabsorption of α-aminoisobutyric acid. W. A. Webber, 507.
Whitsitt, L. S.
Propranolol (Inderal) in experimentally-induced cardiac arrhythmias. B. R. Lucchesi, L. S. Whitsitt, and N. L. Brown, 543.
Wilson, R. B.
Dietary control of serum cholesterol levels in rats fed high-fat, cholate-containing diets. R. B. Wilson, J. M. Martin, and W. S. Hartroft, 267.
Wolfe, L. S.
On the action of prostaglandin E_1 and prostaglandins from brain on the isolated rat stomach. F. Coceani and L. S. Wolfe, 933.
Wolowyk, M.
The contractile response of the uterus to cocaine. E. E. Daniel and M. Wolowyk, 721.
Wood, J. D.
Development of a strain of rats with greater than normal susceptibility to oxygen poisoning. J. D. Wood, 259.

Wright, L. A.
The proximal tubular handling of amino acids and other ninhydrin-positive substances. L. A. Wright and T. F. Nicholson, 183.
The plasma levels, filtered loads, excretion rates, and clearances of a number of ninhydrin-positive substances by normal fasting dogs. L. A. Wright and T. F. Nicholson, 195.
The distal tubular handling of ninhydrin-positive substances. L. A. Wright and T. F. Nicholson, 435.
Zain-ul-Abedin, M.
Increased blood clotting time in a hibernating lizard. M. Zain-ul-Abedin and B. Katorski, 505.
Zborowski, D. T.
Studies of the carbon dioxide and oxygen tensions of urine during application of the stop-flow technique. D. T. Zborowski, B. Koch, D. V. Bates, and J. B. Dossetor, 731.
Zipursky, A.
Erythrocyte sodium transport in hereditary elliptocytosis. J. C. Peters, M. Rowland, L. G. Israels, and A. Zipursky, 817.
The early-appearing bilirubin in ducks. L. G. Israels, W. Novak, J. Foerster, and A. Zipursky, 864.
